Now we are going to find out more about the Anglo-Saxon objects on our map. To do this we use the search box at the top left of the screen which looks like this:

5 Type *Anglo-Saxon* into the search box and a list of objects appears. Select one by highlighting it and press 'enter'. You will zoom into that item and the place where it was found.

Write down the name of the object here and the place that it was found. Draw a picture of it on a separate piece of paper (you can open the large photograph of it on the map to help you see the object better).

6 Type *Shalcombe* into the search box and press 'enter'. Write down the name of one of the objects that appears in that place (or location). Take the fourth letter of the material the object is made from and write it down here

7	Type <i>Shalfleet</i> into the search box and press 'enter'. Take the second letter of the material the object is made from and write it down here
8	Type <i>Bowcombe</i> into the search box and press 'enter'. Using the first object on the list, take the second letter of the object name and write it down here
